

Finding the Mentor

So my sponsor isn't very active in ASEA as a business and I've learned what I can from them and now what do I do?

Trish Schwenkler tells the story of when she first started networking she learned what she could and then got to the point where she realized that she knew more than her sponsor... well she "took over" her growth and turned to books and tapes and to her further upline leader who, was not very accessible, so not so much help.

So realize that you are fortunate if you have an active upline who can be a good teacher and also realize that there hopefully will be a point where you grow beyond them.

And now the ABC
(ASEA Business Coach)
genie provides a
substantial mentorship
program

This is why our Amazing team has set up the Daily Charge Up Call and why we provide self accountability tools like in the ["Burst" page under Training](#)

There is a saying... "If it's to be, it's up to me" - ASEA the company, your Amazing molecules team, your sponsor (hopefully) and upline will do what they can and truly do have the best support in the industry. But in the end we gotta take the bull by the horns and make it happen.
