

**As you probably know,
YOUR SKIN
is your largest organ.**

**Taking care of your skin is a matter of
Beauty, Health, and Comfort.**

There are thousands of ways to take care of skin --
and most skin products are highly specialized.
One for wrinkles, one for acne, another for rashes,
sunburn, moisturizing, elasticity, bug bites,
tightening the skin around the eyes,
rough skin, blotchy skin, cuts and scrapes,
long-term sun damage ...

**What if there was ONE product that could help you have
*overall healthier and more beautiful skin?***

**RENU 28 -
*One and
Done***

**Certified & Tested SAFE,
Completely Non-Toxic
Made From Only 4 Ingredients
This Unique Skin Gel utilizes
Redox Signaling Molecule
Technology**

**RENU 28: A Skin Revitalizing Gel
containing redox signaling molecules
REPAIR & COMFORT AGING OR DAMAGED
SKIN**

Please Note:

These Before and After photos are genuine. Some of the people in these photos I know personally; some live in the area. Most of these photos are not taken by professionals but we did our best to "compare apples and apples" by using the same camera and lighting conditions. Each pair of pictures are the result of 28 -- or fewer -- days of applying RENU28, usually twice daily.

BEFORE

AFTER

Photo from the actual Dermatest clinical trial of a 28 days.

**Ordered test conducted by Dermatest® GmbH*

Dermatest, a highly regarded German dermatological testing institute, tests hundreds of different products using sensitive, state of the art equipment for measuring changes in the skin. RENU 28 received its HIGHEST rating -- 5 stars.

ASEA RENU 28 encourages the strength and resiliency of your skin cell reproduction in partnership with your body's natural efforts to keep your skin healthy. The powerful science behind RENU 28 delivers gentle, effective treatment to repair or comfort aging or damaged skin. Through Redox Signaling Technology, this unique gel provides essential support to the all-important cellular mechanisms that are the foundations of our skin's structure. RENU 28 provides critical connections and communication between cells with Redox Signaling Molecules to ensure optimum renewal and replenishment.
